

OCTOBER 2026

THE YACHT & RACQUET CLUB OF BOCA RATON

MARKET REPORT

Your definitive guide to real estate activity, pricing trends, and market intelligence within one of Boca Raton's most coveted waterfront addresses.

A TRUSTED PARTNERSHIP FOR OUR COMMUNITY

Daniel Schultz is pleased to introduce Matt Gelling as his partner in serving the Yacht & Racquet Club of Boca Raton community. Together, their focus remains aligned with the interests of residents: protecting property values, strengthening future comparable sales, and providing informed guidance within one of Boca Raton's most unique waterfront communities.

DANIEL SCHULTZ

A resident of YARCOBR and Realtor with The Keyes Company, Daniel has developed a reputation for his hyper-local knowledge of the community and his commitment to preserving and enhancing property values. Through his market reports, community involvement, and real estate expertise, Daniel strives to help residents make informed decisions while promoting the long-term success of the community.

MATT GELLING

Originally from New York, Matt moved to Florida with his family and attended Florida Atlantic University. He built a successful leadership career with Circuit City and Apple, managing large teams and operations before transitioning into real estate. As a second-generation Realtor with more than 35 years of family involvement in the industry, Matt brings strong negotiation skills, marketing expertise, and a client-first approach to every transaction.

LOCAL STRENGTH DESPITE HIGHER BORROWING COSTS

The broader market surrounding YARCOBR has shown considerable strength heading into the fall. In September, the 33431 ZIP code recorded a median sold price of approximately \$740,000, up nearly 27% from one year earlier. At the same time, active inventory declined approximately 21%, while median marketing time fell to 78 days.

Those gains are occurring against a more challenging economic backdrop. The average 30-year fixed mortgage rate reached 7.03% in late September, while U.S. consumer prices were 3.4% higher than one year earlier. Higher borrowing costs can reduce purchasing power for financed buyers.

WHAT DOES THIS MEAN FOR YARCOBR?

The strength of 33431 provides an important benchmark for our community. If the surrounding market is experiencing higher prices, lower inventory and shorter marketing times, it becomes increasingly useful to examine how YARCOBR is performing relative to the market immediately outside our gates.

COMMUNITY PULSE™ #2

YARCOBR'S FUTURE: WE WANT YOUR OPINION

Our first Community Pulse™ survey gave residents an opportunity to share what they value most about YARCOBR and where they believe improvements are needed.

This month, we're asking residents to weigh in on several important issues currently being discussed within our community.

THE ICC

The Board is considering increasing the Initial Capital Contribution paid by new purchasers from **\$50,000** to **\$75,000**.

EXISTING OWNERS

If an existing YARCOBR owner sells one unit and purchases another, what portion of the prevailing ICC should apply?

CAPITAL IMPROVEMENTS

How should YARCOBR fund major future improvements — and which projects should receive priority?

LONG-TERM PLANNING

How important is a formal **5–10 year** capital improvement plan for the community?

These subjects reflect issues discussed at the September 28 Board meeting, including the proposed ICC increase and requests for a formal longer-term capital plan.

YOUR VOICE MATTERS

TAKE OUR BRIEF COMMUNITY PULSE™ SURVEY

The survey is anonymous, and we'll share the results with residents in a future Market Report.
