

YARCOBR COMMUNITY PULSE #2

October 2026 | Complete anonymous survey results

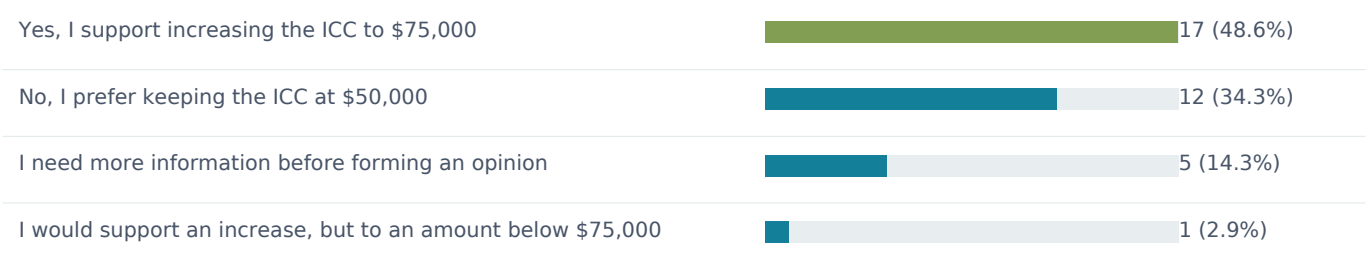

35 survey submissions · Seven closed-ended questions · 21 written responses

This report reproduces the aggregate results and all 21 written responses from the Mailchimp export. Respondent names, email addresses, dates and individual response records are excluded. Comments are reproduced verbatim, including spelling and punctuation. Some wording or distinctive details may nevertheless be recognizable to people familiar with the circumstances.

The survey was voluntary and self-selected; these results are not a scientific sample or an official community vote. Percentages are based on 35 submissions unless otherwise noted. For Question 6, multiple selections were permitted, so percentages do not sum to 100%.

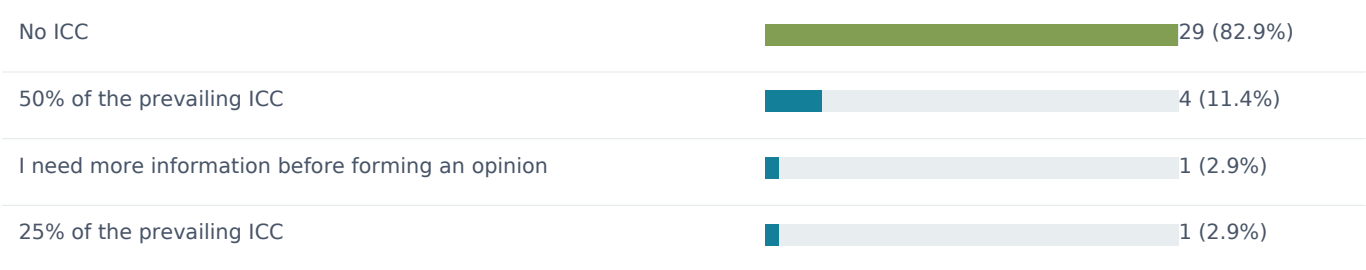

QUESTION 1

The Board is considering increasing the Initial Capital Contribution (ICC) paid by new purchasers from \$50,000 to \$75,000. Do you support this proposed increase?

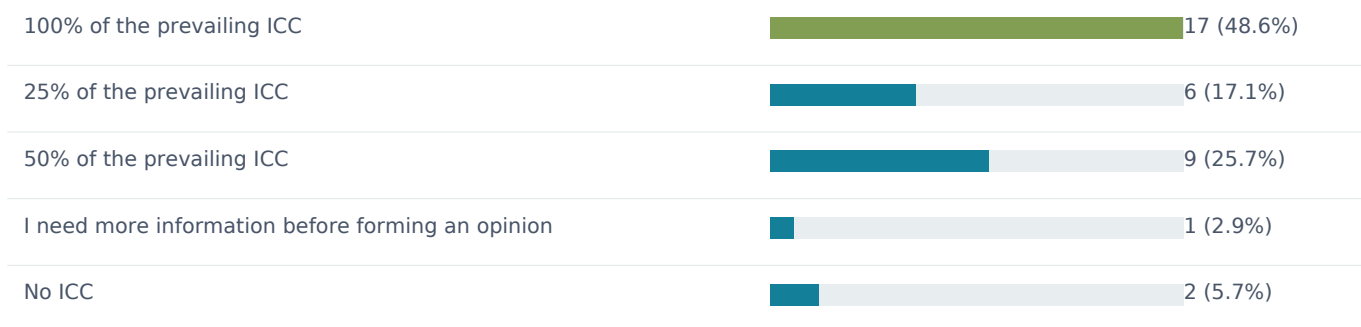

QUESTION 2

If an existing YARCOBR owner sells their unit and purchases another YARCOBR unit as their new residence, what portion of the prevailing ICC do you believe they should be required to pay?

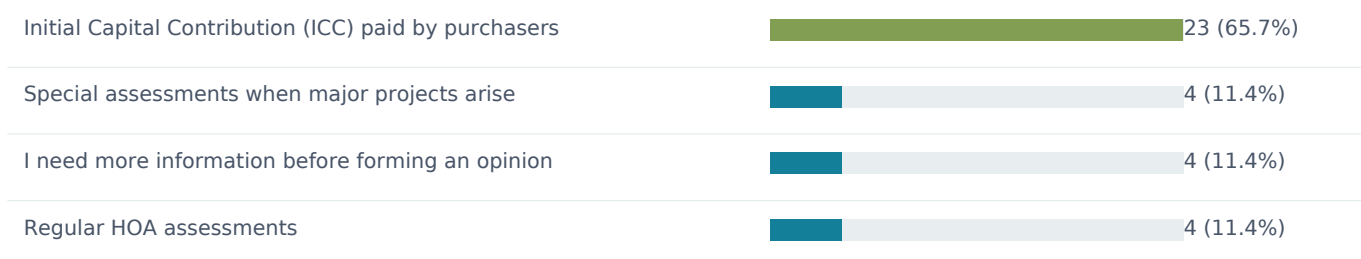

QUESTION 3

If an existing YARCOBR owner keeps their current unit and purchases an additional YARCOBR unit as an investment or rental property, what portion of the prevailing ICC do you believe they should be required to pay?

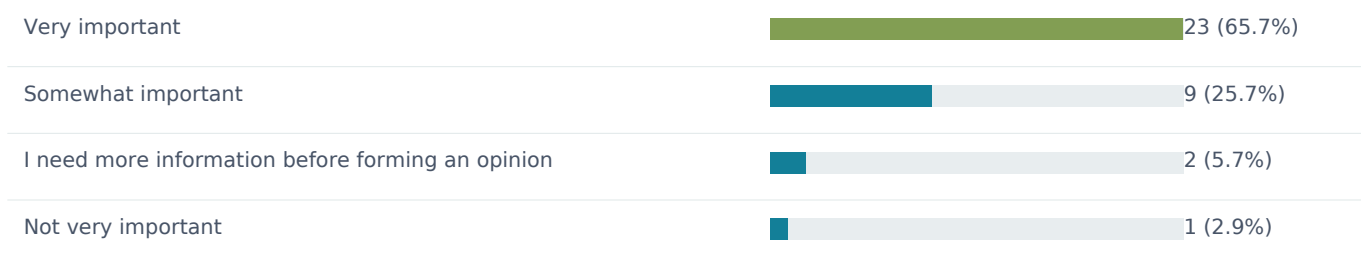

QUESTION 4

As YARCOBR plans for future capital improvements, which approach do you believe should be the primary source of funding?

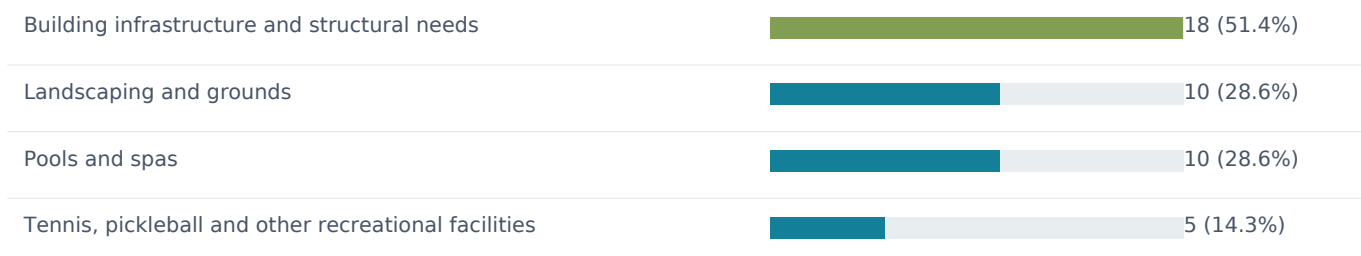

QUESTION 5

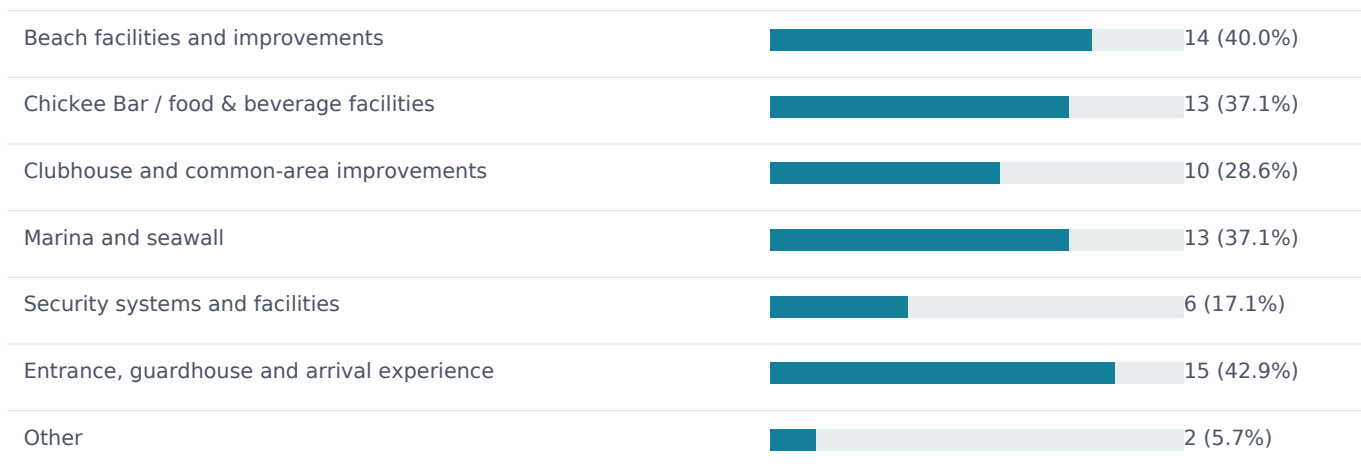

How important is it to you that YARCOBR develop and communicate a formal 5-10 year capital improvement plan covering major infrastructure, maintenance and amenity projects?

QUESTION 6

Which areas should YARCOBR prioritize for future capital improvements? Please select up to three.

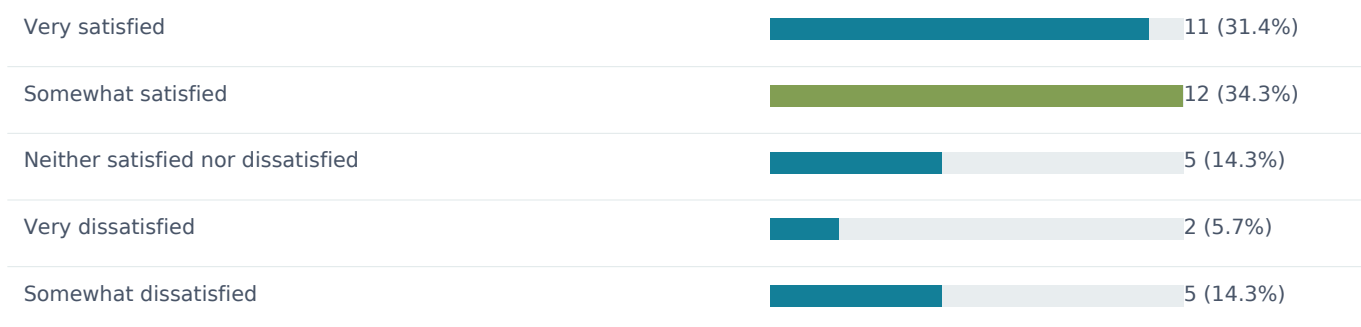

Multiple selections allowed. Source chart records 35 answers; 34 nonblank values appear in the CSV.
 Other — open-text entry recorded in the chart export: “ALL”

QUESTION 7

Overall, how satisfied are you with the direction YARCOBR is heading?

QUESTION 8 — RESIDENT COMMENTS

In 1-2 sentences, what is the single most important issue or improvement you would like YARCOBR leadership to prioritize?

21 of 35 respondents provided a written answer. The entries below are verbatim and shown without names or identifying metadata. They are arranged in the CSV export order; this order does not link them to individual multiple-choice responses.

Anonymous comment 01

To enclose the chickee bar so it may be used year round. Also to add a kitchen and bar in the clubhouse.

Anonymous comment 02

Take a breath. We just finished MAJOR assessments on the Club House, Sea Wall and landscaping. Take a freakin' break. Increasing the ICC is obscene.

Anonymous comment 03

Beach facilities

Anonymous comment 04

Finish the slow infrastructure work especially the F spa and get YARCOBR back to peaceful environment

Anonymous comment 05

Transparency and landscaping

Anonymous comment 06

A new entrance to the clubhouse and a community area on the empty pickleball area including the second floor of the clubhouse.

A spa area attached to the gym

Anonymous comment 07

Doing major renovations OUT OF SEASON (APRIL TO OCT.) Residents pay for and deserve peace and quiet just like other developments. should consider this before raising the ICC

Anonymous comment 08

The lighting is very dim walking from the clubhouse or Chickee Bar past the I building and past the block of townhouses for walkers at night

Anonymous comment 09

We have so much going on at present, let's finish the existing projects and take a rest to enjoy them for a few years. The biggest issue for our friends and neighbors is the terrible food at the Chickee bar and its mis management. Adding some sound proofing would help and would be quick, cheap and easy to do.

Anonymous comment 10

Change in club president and new general manager

Anonymous comment 11

Better quality chickee bar food
Less time, restrictions for usage of pool and spa
Fix the F spa sooner rather than later

Anonymous comment 12

Need to find a way to control expenses in order to lower all the HOA dues. People are not going to purchase condos at YARCOBR if our fees stay so high. Condo appreciation has stalled because of our high fees

Anonymous comment 13

Food and beverage

Anonymous comment 14

Getting the exterior common area's to look more inviting

Anonymous comment 15

Complete concrete restoration

Anonymous comment 16

Community Consensus and Active Ownership Decision-Making

Anonymous comment 17

measure twice and perform improvements/upgrades once!!!! instead of having to redo everything that is done twice

Anonymous comment 18

Building improvements and maintenance. Structural integrity. Keeping the community at high standards.

Anonymous comment 19

Establish and implement an architectural landscaping modernization and improvement plan including barbecues.

Anonymous comment 20

Improved food quality at Chickee Bar especially for buffets/functions.

Anonymous comment 21

Reserve for future large structural needs such as replacing the inner marina seawall. In 2021 the Falcon report said it would be about \$12 million dollars. Use our ICC and reserve funds for that not changing the entrance way. It is beautiful the way it is. Would rather reserve now and not face another large assessment especially because we never got an accounting where the previous \$9 million dollars went. I know some of it went on the hideous furniture in the sky lounge.
